ROSEDALE HYBRID TEA ROSES

Autumn. Buds of deep burnt-orange, opening to 3-inch flowers of the same color, stained and splashed with red, orange, and pink; fragrant. 25 to 30 petals.

Better Times. Pat. 23. The brilliant cerise flowers are large, double, and delicately fragrant. Being produced on long, strong stems, they are excellent for cutting. Foliage is leathery, dark green. \$1.00 each.

Betty Uprichard. Carmine buds, opening to large salmon flowers, suffused with orange on the inside and deep coppery carmine on the outside; spicy fragrance.

Briarcliff. Fine, handsome flowers of silvery rose-pink; fragrant. A great cut-flower.

Caledonia. Long, beautiful white buds and exquisitely shaped flowers; dainty fragrance.

Countess Vandal. Pat. 38. Long-pointed bud and high-centered flower of coppery bronze, suffused with soft gold, developing new beauty at all periods of its long life. \$1.00 each.

Condesa de Sastago. A recent introduction of golden yellow suffused with pink, opening to a nasturtium-red. This vigorous grower supports full, fragrant flowers in great profusion.

Eclipse. Pat. 172. The very long, slender, and notably elegant yellow buds open to loose flowers with 20 to 25 golden yellow petals which hold their color. \$1.25 each.

E. G. Hill. Great massive blooms of deep red, velvety on inside; very fragrant.

Edith Nellie Perkins. Perfectly formed flowers, rosy carmine on the outside of the petals and pale salmon, flushed with gold, on the inside.

Editor McFarland. Perfectly formed buds open to high-centered flowers of deep rose-pink. They are produced on long cutting stems and last longer as a cut-flower than any other Rose.

Essence. Considered a more double Etoile de Hollande; blooms deep crimson. Vigorous grower.

Etoile de Hollande. Large, double flowers of splendid form, with immense petals of deep velvety crimson; unforgettable fragrance.

Feu Joseph Looymans. Long, pointed buds of glowing apricot and old-gold.

Frau Karl Druschki. Very vigorous growth with gigantic white buds and blooms.

Gloaming. Pat. 137. Large fawn-orange buds; open flowers of a peculiar shade of pink, overlaid with salmon. Extra-strong, branching. \$1.00 each.

Golden Dawn. Bud rich straw-yellow, flushed old-rose; flower double, sunflower-yellow, passing to lemon-yellow with age. Healthy foliage.

Golden Main. Pat. 254. Extremely lasting, cupped flowers of pure golden yellow; intensely fragrant. Vigorous, upright plants with large, glossy foliage. \$1.25 each.

Gruss an Teplitz. A large, bushy, shrub-like plant with medium-sized, double, fragrant blooms of brilliant crimson.

Joanna Hill. One of the Ophelia family with moderately fragrant creamy yellow flowers. Although only semi-double, it has splendid form and is an ideal cut-flower.

K. A. Viktoria. The standard, double, pure white bedding Rose.

Leonard Barron. Large, double flowers that average 5½ inches across; salmon, tinted with amber; fragrant. Low, branching plants.

Margaret McGredy. A popular and dependable scarlet garden Rose overlaid with orange, changing as the blooms mature to carmine-rose; fragrant. 40 petals.

Matador. Pat. 170. Large; full, well-formed, scarlet-crimson Rose with darker silky sheen on the reverse; very fragrant. Vigorous, healthy plants. \$1.00 each.

Max Krause. Probably the most yellow Rose for outdoor use. Long buds and cup-formed blooms of great substance are borne on long stems. A gold that stays gold.

Mevrouw G. A. van Rossem. Brownish yellow flowers, strongly shaded copper-pink.

McGredy's Ivory. The very large pointed buds open into huge, deep-petaled, fragrant, creamy white flowers.

McGredy's Scarlet. A pleasing shade of light red. Extra good plant. 30 petals.

McGredy's Sunset. Patent rights reserved. The outside of the petals is a clear buttercup-yellow, topped orange, while inside is chrome-yellow, flushed with scarlet as it opens. Color is at its best when blooms fully open. Flowers medium size; fragrant. \$1.50 each.

Miss Rowena Thom. Very large, deep pink flowers, fully double and fragrant. Extra-strong branchy plants bloom all the time.

Mme. Jules Bouche. One of the finest of all white Roses. The long-pointed buds open to glistening white flowers with a pale blush center; moderately fragrant. The plants are tall, quite close growing, and bloom freely.

Mrs. E. P. Thom. An American Rose which is one of the best of all the garden yellows. The nicely formed flowers of clear canary-yellow are freely produced on a strong, symmetrical plant with dark green foliage.

Mrs. Pierre S. du Pont. The most satisfactory yellow Rose for the garden. Long-pointed, rich reddish gold buds opening to 40-petaled flowers, same color; fragrant.

Mrs. Sam McGredy. Large, fairly double orange-salmon blooms with a suffusion of gold. Vigorous, healthy plants with beautiful foliage.

President Herbert Hoover. The shapely buds open to high-centered flowers of scarlet, yellow, cerise, pink and flame; fragrant. Tall growth.

Radiance. Fragrant blooms of two-toned pink on vigorous plants with splendid foliage.

Rapture. Long buds, opening to beautifully formed blooms of deep pink with yellow shading at base of the petals. Plants almost thornless.

Red Radiance. Cerise-red sport of Radiance with the same delightful large cupped flowers of 25 to 30 petals. Healthy plants.

Rev. F. Page-Roberts. Buff-yellow with red shadings, splendid form, full and double, with a delicious apple fragrance. Plants are low growing.

Roslyn. Medium-sized, deep orange buds opening to large, semi-double flowers of golden yellow.

Signora. Pat. 201. Long, warm burnt sienna bud opening to a lighter hue toward mandarine. The plant is tall growing with every bloom on a long stem. Foliage is handsome. \$1.25 each.

Talisman. Fragrant flowers, a mixture of orange, rose, yellow, and red.

Ville de Paris. Pointed buds open to good-sized flowers of rich buttercup-yellow. Plants are quite tall. Long stems.

White Briarcliff. Pat. 108. A supreme white Rose with fine form. Vigorous bushy plants. Tremendous producer and ideal for cutting. \$1.00 each.

All Hybrid Tea Roses, 65 cts. each; 3 for \$1.85; 12 for \$7.00, except where otherwise noted.

Climbing Roses

Blaze. Pat. 10. Blaze combines the vigor, beauty and hardiness of Paul's Scarlet Climber with the everblooming qualities of a favorite everblooming Rose. \$1.00 ea.

Doubloons. Pat. 152. Clusters of very large, cup-formed, saffron-yellow blooms, opening one after the other, thus prolonging the season. Long, heavy canes. Undoubtedly the best yellow Climber to date. Has a tendency to repeat in midsummer. \$1.50 each.

Dr. W. Van Fleet. Beautifully formed flowers of cameo-pink, aging to flesh-white, borne singly on nice stems; moderate fragrance. Vigorous grower, making 15 to 20-foot canes in a season.

Golden Climber. Pat. 28. Perfectly formed buds of deep golden yellow, with carmine markings, opening to large, semi-double flowers of the same rich colorings, borne singly on 15 to 20-inch stems. \$1.00 each.

Golden Moss. A very vigorous Hybrid Moss suitable for bush or pillar. Large, full, very mossy flowers of cream-yellow, deeper in the center.

Jacotte. Flower large, semi-double, coppery yellow, tinted coppery red.

Max Graf. Large, single pink flowers that fairly glisten in the sunlight. A fine ground-cover.

Mme. Gregoire Staechelin. Large flowers of iridescent pearl-pink, splashed with earmine on the outside of the petals. They are wonderfully fragrant, very freely produced on long stems, and are followed by very large seed-pods which are ornamental.

New Dawn. Pat. 1. Beautifully formed flowers of a delicate shade of blush-pink, produced singly on long stems. It is a dependable "everblooming" Climber. \$1.50 each.

Paul's Scarlet Climber. Blooms vivid scarlet, of good size, in clusters of 5 to 15. The most brilliant and one of the most dependable of Climbing Roses.

Princess van Orange. Pat. 106. Branches literally covered with masses of brilliant orange-scarlet flowers, imparting an unusual radiant glow. \$1.00 each.

Silver Moon. The semi-double flowers average 4½ inches in diameter and are creamy white with an amber tint at the base; slightly fragrant. Plants are very vigorous with heavy, glossy, disease-resistant foliage.

Wichuraiana. Many clusters of bright, starry white flowers adorn its branches in June and July. 50 cts. each.

All Climbing Roses, 65 cts. each; 3 for \$1.85; 12 for \$7.00, except where otherwise noted.

ROSEDALE ROSES

will give beautiful blooms all summer

Enjoy the thrill this summer of growing the best of the new Roses. Rosedale Roses have consistently been leaders with exhibition blooms. They are grown with extreme care, under best growing conditions, properly fertilized and sprayed, and the result is a sturdy, vigorous plant full of life and capable of producing the maximum of blooms.

Rosedale Roses are winter-stored in the ground and are delivered to you packed in moist moss. This method, while more costly, insures quicker starting and hence less damage from transplanting.

Rosedale Roses today offer the greatest value in our forty years of growing. At slight extra cost all varieties may be had in potted plants. We recommend these potted plants for those who cannot plant before May in this locality.

EXHIBITION GARDEN

Visit our Exhibition Garden of Roses this summer.

Several hundred of the newest Hybrid Tea, Floribunda, and Climbing Roses will be in their full glory, probably about June 20. Many varieties will be in bloom which will be available for the first time. Included are many new perennials which you will want to see. We invite you to visit the Garden as often as you desire and stay as long as you wish. All Roses will be labeled for your convenience.

Plant Patent 152

FLORIBUNDAS and RUGOSAS

Up-to-date gardeners will want to use the new Floribunda Roses liberally. Floribundas are the result of intensive hybridizing, both here and in Europe, and make available desirable colors in plants which are winter-hardy, permanent, disease-resistant, and bloom continuously in large clusters. They are especially bred for sturdiness, ease of culture, and mass color effects.

The Floribunda varieties should be planted in groups of three or more of a kind. Plant them among shrubs for continuous color. Use them as hedges or borders. When planted 15 to 18 inches apart, they will shade the ground and the flowers will blanket the foliage. In the smaller gardens they also are a continuous source of excellent cut-flowers for the house.

The Rugosa Roses, one of the oldest classes, are ever a source of delight in shrub plantings. Their growth equals a medium-sized shrub and the profusion of bloom is unequalled by most shrubs. The care of Rugosa Roses is no more than that given the most ordinary shrub. A Rugosa Rose hedge is informal but neat in appearance and forms a definite boundary or barrier.

SPECIAL OFFER
3 Popular Climbing Roses for \$1.75
Paul's Scarlet Climber. Scarlet climber.
Mme. Gregoire Stacchelin. Pink Spanish Beauty.
Silver Moon. White climber.

Polyanthas and Floribundas

Anne Poulsen. Pat. 182. Large, semi-double, scented scarlet-crimson flowers in large sprays. 75 cts. each.

Carillon. Pat. 136. The plant is branching and spreading. Bud orange-scarlet, long-pointed, and opens up to a lively coral-flame. 85 cts. each.

Gloria Mundi. Brilliant orange-scarlet flowers in huge clusters.

Golden Salmon. Small scarlet-salmon flowers tinged yellow.

Karen Poulsen. Bud medium size globular; flower single, brilliant scarlet. Continuous bloomer from June to November.

Above three varieties, 65 cts. each; 3 for \$1.85; 12 for \$7.00

Permanent Wave. Pat. 107. The petals are fluted or waved. Blooms rather large for the type, rosy pink with cerise edges, in great clusters. 75 cts. each.

Rochester. Pat. 131. Blossoms of clear two-tone pink and buff, deeper in center, having coppery tinges and yellow at base of petals. 85 cts. each.

Rugosa Roses

Agnes. A yellow Rose. Flowers of medium size, double, lasting, very fragrant, amber with a deeper center.

Blanc Double de Coubert. A free-growing and extra-fine white variety.

Sanguinaire. Single; vivid red. Everblooming, handsome shrub.

All Rugosa Roses, 65 cts. each; 3 for \$1.85; 12 for \$7.00

The New Delphinium, PINK SENSATION
Plant Patent Rights Reserved

French Hybrid Lilacs

Almost everybody knows and loves the old-fashioned purple Lilac, but only a few know how exquisitely lovely the French Hybrids are. They are just as easy to grow, and bloom when they are even younger. The flowers are relatively huge, and are borne in enormous clusters, sometimes six or seven clusters combined in one great truss. Here are eight favorite varieties which are so exquisitely lovely and different that you will want them all in the border as specimens.

Belle de Nancy. Double; satiny rose. 2 to 3 ft.; 3 to 4 ft.
Charles X. Single; bluish violet-red. 2 to 3 ft.; 3 to 4 ft.
Congo. Single; purple. 2 to 3 ft.; 3 to 4 ft.
Hugo Koster. Single; soft lilac. 2 to 3 ft.; 3 to 4 ft.
Marie Legraye. Single; white; fragrant. 4 to 5 ft.
Mme. Casimir-Perier. Double; white. 2 to 3 ft.
President Grevy. Double; soft blue. 2 to 3 ft.; 3 to 4 ft.; 4 to 5 ft.
Souvenir de Ludwig Spaeth. Single; bright red. 3 to 4 ft.

In addition to the above we offer fourteen other varieties in limited quantity
All Hybrid Lilacs, 2 to 3 ft., \$1.00 each; 3 to 4 ft., \$1.50; 4 to 5 ft., \$2.50

LARGE SPECIMEN LILACS

For the first time in many years we are able to offer a wide selection of heavy specimen plants. There are 28 varieties, including all those preferred by landscape architects. The plants are broad and bushy, with no sucker growth, and full of vigorous buds. Sizes run from 5 to 8 feet, and all will be dug with a generous ball of earth.

We offer these plants at from \$5.00 to \$10.00 each, according to size and variety

GYPSOPHILA

Paniculata fl.-pl., Bristol Fairy. The blooms are double, white, fully three times larger than the old-fashioned double Babys-Breath. Flowers repeat throughout the summer. Every garden should contain a few plants, for the flowers are indispensable for cutting. 6-in. plants, 75 cts. each.
Rosenschlier. Dwarf Babys-Breath. *New.* A real double, pink-flowering Gypsophila. Flowers are the size of Bristol Fairy and it blooms freely and continuously until frost. 30 cts. each; \$3.00 per doz.

Gypsophila paniculata fl.-pl., Bristol Fairy

French Hybrid Lilac

Weeping Wisteria

TREE WISTERIA

Tree Wisterias with their weeping appearance make lovely lawn specimens attractive all the year round, but when a mature plant blooms, the long clusters of beautiful flowers present a picture which, once enjoyed, will be eagerly looked forward to every season.

The Wisteria is a very vigorous vine and all homes do not have room for a plant grown as a vine but every home can find room for one of these lovely plants trained as a small weeping tree.

Lovely purplish blue flowers completely cover the tree during May. Our plants are on stems about 4 feet high with 2½ to 3-foot crowns. Every plant has bloomed.

\$7.50 each; \$14.00 for 2

ROSEDALE "SPECIALS"

For You to Plant this Spring

In this folder we are offering Rosedale Roses and a few Rosedale specialties we wish to call to your attention for this spring's planting.

The planting material shown and described here is of varieties we have found to be successful and of which we have ample supplies to fill orders promptly.

We have a full line of planting material and invite visitors to our Nurseries where we can show and discuss material suitable for each individual planting.

An order will prove the superior quality of Rosedale plants.

NEW DELPHINIUM

Pink Sensation

The first clear pink Delphinium ever offered. A most interesting novelty. The plant is very vigorous, mildew-free, and grows to a height of about 4 feet. It resembles the Belladonna type in appearance of the foliage and size of the individual blooms, and as the spikes have many laterals the display is much enhanced. The flowers appear in early June and repeat almost continuously until autumn. They are light rose-pink, a color previously unknown in Delphinium. The plants are hardy, having lived perfectly through two winters in northern New York State. They are ideal for the border and for cutting.

\$1.25 each; \$12.50 per doz.

FLOWERING DOGWOOD

Pink or White

Spring and Dogwoods are synonymous. Prepare now for spring by planting Pink and White Dogwoods throughout your grounds. They are America's finest native tree, and while slow in growth are profuse bloomers. There is no more lovely sight than Dogwood in full bloom. Our stock of this most permanent tree was never more extensive. We have a wide selection of sizes and shapes.

White Dogwood		Pink Dogwood	
3 to 4 ft.	\$1.75	2 to 3 ft.	\$1.75
4 to 5 ft.	2.75	3 to 4 ft.	3.50
5 to 6 ft.	4.75	4 to 5 ft.	5.00
6 to 7 ft.	6.00	5 to 6 ft.	7.50
7 to 8 ft.	7.50	6 to 7 ft.	9.00
8 to 10 ft.	9.00	8 to 10 ft.	15.00
10 to 12 ft.	12.00		

THE NEW GEUMS

Geums will be the brightest spot in your perennial garden this summer if you plant the new varieties. They bloom almost all summer and grow from 1 to 2 feet high, with the brightest flowers in the garden.

Dolly North. A light orange variety. 35 cts. each.
Fire Opal. *New.* Dazzling rich scarlet with orange sheen. Flowers often 3 inches across. Free bloomer. 35 cts. each.

Lady Stratheden. Rich golden yellow. 25 cts. each.
Mrs. Bradshaw. Fiery red flowers all summer. 25 cts. each.

Princess Juliana. A splendid new hybrid with pure orange-yellow flowers on long stems. Very free bloomer. 35 cts. each.

All Geums priced at 25 cts. each are \$2.50 per doz.
All Geums priced at 35 cts. each are \$3.50 per doz

FLOWERING CRAB

Small, glorified Apple trees, richly abounding in beautiful bloom, completely hardy, bearing decorative fruit attractive to birds. Will thrive in light shade. Delightful in the border or planted where they will contrast with good evergreens. Our well-developed specimens blooming for several seasons in the nursery are ready to glorify your garden.

Bechtel's Crab. A fine dwarf variety with double, pink flowers resembling a miniature rose. Makes a shapely, compact tree. 3 to 4 ft., \$2.00; 4 to 5 ft., \$3.00.

Floribunda Crab. Single; rose-pink. Bears an abundance of small yellow fruit even when young. 3 to 4 ft., \$1.50; 4 to 5 ft., \$2.50; 5 to 6 ft., \$3.50; 6 to 8 ft., specimens, \$5.00.

Hopa. Erect; symmetrical. Leaves tinged purple. Flowers are large, red, single. Dark red fruit. 5 to 6 ft., \$3.50; 6 to 8 ft., specimens, \$5.00.

Scheideckeri. Double pink Floribunda. 3 to 4 ft., \$1.50; 4 to 5 ft., \$2.50; 5 to 6 ft., \$3.50.

Theifera. Tea Crab. Irregular spreading top with zigzag branches completely clothed with flowers. Buds red, opening to single pink flowers. Fruit dull red. This is one of the best. 3 to 4 ft., \$1.75; 4 to 5 ft., \$2.50.

Special Offer of 3 Finest Flowering Crabs (Hopa, Scheideckeri, and Floribunda): Large 6 to 8-ft. specimens, ready to bloom, \$12.00 (\$15.00 value).

Flowering Crab-Apple (Malus)

CULTIVATED BLUEBERRIES

A grand combination of luscious fruit on the most ornamental shrub. Cultivated Blueberries are a development of hybridizing for 25 years. This work has been carried on by the U. S. Department of Agriculture and various state experiment stations. The varieties offered are those developed by these scientists.

Native Blueberries have long been planted for their ornamental value. These new cultivated varieties combine the fine ornamental qualities of the native with incomparably larger and more luscious fruit. So beautiful are these new shrubs all through the year that one wonders how any other show bush can be compared with them. In the spring they are a veritable drift of creamy bloom, which is followed in midsummer by clusters and spikes of great berries of the bluest blue, unmatched for their luscious flavor. With the approach of the first frost their leaves take on handsome colors of rich carmine-reds and coppery golds that last long after all other shrubs have been denuded of their foliage.

Blueberry plants will attain a height of 6 to 7 feet but will give best results if kept to a height of 6 feet. The plants are very shapely and with little pruning are very ornamental. It is not necessary to spray, and 6 quarts of choice fruit may be expected from a well-developed bush. Blueberries like moist soil, naturally acid. If the soil is too heavy, sand will improve it. If lacking in humus, add peat moss or leaf-mold humus. Almost any soil will be satisfactory. They may be planted 3 to 4 feet apart on the home-grounds and either in spring or fall.

Blueberries are extremely hardy and have withstood temperatures of 30 degrees below zero.

Cultivated Blueberries are the long-awaited answer to the demand for better, bigger, finer Blueberries that can be picked under modern sanitary conditions.

These thrifty young plants are of **bearing age** and about 1½ feet high.

\$5.00 for 3.

Three different varieties are supplied to afford cross pollination.
